TECHNICAL PROJECTS:

DTR [Github](#) | *currently working on personal project

- ◆ Created MERN stack project (MongoDB, Express, React, NodeJS) in one week
- ◆ Consumed Wikimedia's API and learned about web-scraping with cheerio.js
- ◆ Used Trello for project planning and kept track of personal deadlines

Flight-Logbook [Github](#) | [Application](#)

- ◆ NodeJS, MongoDB, JS, HTML, CSS, OAuth2, & deployed on Heroku
- ◆ Implemented basic CRUD operations and saved data to database
- ◆ Collaborated with a UX/UI student and executed his designs and met for 10-15 minutes, twice a day to discuss our progress and worked on our own for the week

A Stardust Truce [Github](#) | [Application](#)

- ◆ Python, Django, PostgreSQL, HTML, JS, Trello, Github,
- ◆ Git master for group project - focused on collaboration, solving merge conflicts, following basic git workflow (branches, dev, master)
- ◆ Project about data structures and helping students "create" structures to further understand them

2048 [GitHub](#) | [Application](#)

- ◆ Vanilla JS, CSS, HTML - Spent time learning how to rotate a matrix
- ◆ This project helped me improve my understanding of array methods, solving algorithms and bugs/errors, and grabbing elements in the DOM
- ◆ TODO: Make code DRY and follow ES6 protocol - Make this game more object oriented

EXPERIENCE:

Crescendo Collective

Milwaukee, WI

Junior Web Analyst

Jan 2017 - October 2018

- ◆ Created sales, web traffic, and user data reports for clients and sought out anomalies to improve sales strategies for clients. Kept track of clients' KPIs and raised redflags to ensure goals are on track through A/B testing
- ◆ Presented quarterly reports for clients and collaborated with team to brainstorm new ideas and future work. Curated content calendars for clients' social media and sales promotions
- ◆ Researched keywords for search engine optimization and utilized Google Analytics and Adobe Analytics to increase traffic to websites

Code Camps

Milwaukee & Chicago

Speaker

Nov 10th, 2018 & May 2019

- ◆ Selected speaker to introduce people to the history of Smalltalk
- ◆ Presented a demo with Pharo IDE and talked about the historical significance of Smalltalk and Xerox Parc in the computer programming industry

GenHERation

May 2017 - December 2018

Contributing Writer

Remote work

- ◆ Conducted interviews on women in the tech industry and wrote short articles to inspire high school girls to pursue careers in tech and STEM

Keen Independent Research, LLC

November 2017 - October 2018

Research Assistant

Remote work

- ◆ Interviewed people in small businesses, women and minority owned businesses on city projects of Milwaukee and San Jose. The projects focused on whether big contractors hired smaller businesses for city construction projects
- ◆ Transcribed and translated interviews in Vietnamese

EDUCATION:

University of Wisconsin - Madison

August 2012- May 2016

International Studies & Education - B.A, Powers-Knapp Scholar
