TECHNICAL PROJECT:

DTR Github | *currently working on project
- This is a MERN stack project (MongoDB, Express, React, NodeJS)
- Consuming Wikimedia's API and web-scraping with cheerio.js.
- Using Trello for project management
- This project shows a tree-like structure of a wiki pages and how it is connected to other wiki pages

Flight-Logbook Github | Application
- NodeJS, MongoDB, JS, HTML, CSS, BootStrap, PassportJS, OAuth2, MongoDB, and deployed on Heroku
- Implemented CRUD operations and saved data in database
- Collaborated with a UX/UI student and implemented his designs

A Stardust Truce Github | Application
- Python, Django, PostgreSQL, HTML, JS, Trello, Github,
- Group project - about collaborating, solving merge conflicts, following basic git workflow (branches, dev, master)
- Project about data structures and helping students "create" structures to further understand them

2048 GitHub | Application
- Vanilla JS, CSS, HTML
- This project helped me improve my understanding of array methods, solving algorithms and bugs/errors, and grabbing elements in the DOM.
- I plan to improve on this project by making my code DRY and following ES6 protocol. I also want to make this game more object oriented.

EXPERIENCE:

Crescendo Collective   Milwaukee, WI
Junior Web Analytics   Jan 2017 - October 2018

- Created sales, web traffic, and user data reports for client and sought out anomalies to improve sales strategies for clients. Kept track of clients' KPIs and raised redflags to ensure goals are on track through A/B testing
- Presented quarterly reports for clients and collaborated with team to brainstorm new ideas and future work. Curated content calendars for client's social media and sales promotions
- Researched keywords for search engine optimization and utilized Google Analytics and Adobe Analytics to increase traffic to websites

Code Camps   Milwaukee, WI & Chicago
Speaker   Nov 10th, 2018 & May 2019

- Selected speaker for these code camps to introduce people to Smalltalk, Object Oriented Programming language
- Presented a demo and talked about the historical significance of the Smalltalk and Xerox Parc in the computer programming industry

GenHERation   May 2017 - December 2018
Contributing Writer

- Conducted interviews on women in the tech industry and wrote short articles to inspire high school girls to pursue careers in tech and STEM

Keen Independent Research, LLC   November 2017 - October 2018
Research Assistant   Remote work

- Interviewed people in small businesses, women and minority owned businesses on city projects of Milwaukee and San Jose. The projects were to see if big contractors are hiring smaller businesses for city construction projects.
- Transcribed and translated interviews in Vietnamese

EDUCATION:

University of Wisconsin - Madison - International Studies & Education
      B.A, Powers-Knapp Scholar

- Co-created a China-US relations curriculum for 1 credit, team leader for Project Pengyou Chapter

European Smalltalk OOP User Group
September 2018 Cagliari, Italy

- Student Volunteer for ESUG conference

Study Abroad / International Studies & Education, Environmental
John Cabot University, Rome Spring 2015 - International Studies
